

Over the past few years, your Eagle Public Library introduced a number of services that bring the library to you. Ebooks, emagazines, homebound service, and emusic -- all bring library resources to your home.

The Library's digital collections continue to grow, and with mobile devices, you're able to take the library with you. The Library's ebook collection is always expanding. To borrow an ebook, start at eaglepubliclibrary.org then click on the E-Books button, then choose from one of the services (Overdrive or Hoopla). You'll find thousands of ebooks to borrow. Ebooks are never overdue and there are never fines.

The Library's subscription to Zinio offers digital downloads of your favorite magazines. To use the collection of over 160 magazine titles, start at eaglepubliclibrary.org then click on the E-Magazines button. Once checked-out, the magazine never has to be returned – it's yours forever.

Do you download music but haven't tried Freegal? If so, you're missing a great resource. You have access to over 9,000,000 downloadable songs, and once you download a song, it's yours to keep forever. One of the great things about Freegal is that the database gives library patrons access to the major releases in its catalog on the same day the albums are released commercially. To access the collection, start at eaglepubliclibrary.org and look for the Music link. Once you enter the site, all you'll need is your library account number (it's on the back of your card).
